Our Cakes

Please note that our cakes tend to be taller than traditional wedding cakes. These dimensions represent our standard cake sizes for basic designs; however, we enjoy crafting unique designs with varying sizes and heights to produce visually captivating and one-of-a-kind cakes. These dimensions are provided to give you an idea of the range of cake sizes we can provide.

Wafer Paper Flowers

Wafer paper flowers are the latest craze in sugar flower decorations. Made from thin edible paper derived from potato starch, wafer paper is crafted into lifelike floral designs and various decorations. Its versatility and edible nature allow for the creation of delicate and beautiful petals.

Sugar Flowers

Handmade sugar flowers are crafted from homemade sugar paste, offering a lifelike and edible floral alternative. These food-safe flowers can be stored in a dry place and remain intact for numerous years. In contrast to real flowers, sugar flowers are free from pesticides, bugs, toxins, and do not wilt in sunlight. They are customizable and perpetually available regardless of the season.

Hand Crafted
with Joy
